DETAILED ACTION

1. The terminal disclaimer filed on 07/25/03 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of related application 10/046123 (US Pub. 2002/0105016) has been reviewed and is accepted. The terminal disclaimer has been recorded.
2. The Applicant submitted a proposed amendment to method claims 13-16 on 08/22/03 to rejoin the methods claims with the allowable device claims 1-12. However, the amendment failed to include all the limitations of the allowable device claims. For example, the limitation 'a second gate intermediate layer and a second gate electrode configured between source/drain regions and extending in the direction of a line running between said source/drain regions' is missing. See MPEP § 821.04.

Allowable Subject Matter

3. Claims 1-12 are allowed because the prior art of record fails to disclose all the limitations recited in the base claims 1 and 11 including a diode structure connecting first gate electrode to second gate electrode.

Conclusion

4. This application is in condition for allowance except for the following formal matters:
 - The non-elected claims 13-16 must either cancel or amend per MPEP § 821.04.

Art Unit: 2814
